SUMMARY

Frontend Developer with 2+ years of experience building 50+ responsive websites and web portals using React.js, Next.js, TypeScript, WordPress and Webflow. Skilled in REST API integration, SEO and web performance optimization.

PROFESSIONAL EXPERIENCE

Frontend Developer - *HFWL Company* | Remote **Mar 2025 – Present**

- Serve as the sole frontend developer for the group's company websites, handling building, updates and ongoing maintenance.
- Work with a team on company portals, building responsive user interfaces and integrating backend APIs.
- Manage website and portal work together, supporting portal development whenever website tasks are complete.
- Debug issues and keep all websites updated and running smoothly.

Frontend Developer - *Emilda Solutions Pvt Ltd* | Hosur, Tamil Nadu **May 2024 – Mar 2025**

- Used WordPress, Webflow, plugins and the WooCommerce, and resolved technical issues.
- Optimized sites for SEO and tracked results with Google Analytics and Google Search Console.
- Deployed and hosted websites on Netlify and Hostinger, and ensured they were responsive on all devices.

KEY PROJECTS

HFWL Company

- Independently build and maintain websites for eight group companies: Friska Ai, Nouriq Ai, Kliniq Ai, Claritalk Ai, Kalari Ai, NeuralClinic Ai, Endocpm and HFWL, using WordPress(Bricks builder), plugins and PHP.
- Develop portals in a team using Next.js (NeuralClinic Ai, Claritalk Ai) and React.js (Friska Ai) with TypeScript and MUI, including UI development and API integration.

Emilda Solutions Pvt Ltd

- Independently delivered 40+ websites spanning B2B (Pearl D3), landing pages (BG Farm Cart), dynamic CMS (Tierra Contracting), and online stores (Nexara Glam).
- Vitalis Healthcare: B2B healthcare website that achieved a 90% SEO score through SEO optimization.
